Education

+201030452200

Cairo, Egypt German International University

Sep 2021 - Jul 2025

- Bachelor's degree in Mechatronics Engineering.

Cairo, Egypt German International University

Mar 2023 - Jul 2023

- Bachelor's Thesis in Design and development of a scissor lift capable of lifting up to 4 tones.

Experience

Internship exotics car service Jul 2022 - Sep 2022

- Acted as a liaison between customers and workshop engineers by translating client concerns and technical issues into clear, actionable instructions.
- Gained deeper understanding of common automotive problems through direct exposure to customer cases and workshop solutions.

Internship Xcar Sep 2024 - Feb 2025

- Completed intensive training programs covering motor maintenance, aerodynamics systems, and electronic systems, gaining hands-on exposure to practical automotive applications.

Projects

- **Snake and ladder** (2021). Developed a game in 2d by using c++.
- **RC car using Arduino** (2022). Developed RC car that detect the wall to stop before collision and change direction.
- **Building a portal using JavaScript** (2023). Developed a full website collage portal like the real portal of the university.
- **Elevator using Arduino** (2023). Developed and design elevator.
- **Robert arm** (2024). Developed and optimized algorithms for simultaneous operation of two robotic arms to successfully coordinate.
- **Room population counter** (2024). Developed a counter that count by sensor on Raspberry Pi 4
- **License plat detection using python** (2024). Developed machine learning that detects license in images.
- **Manual Transmission Conversion Kit** (2024). Designed and developed a complete actuators systems kit that make the manual car shift gear automatic
- **Project Management** (2024). .Conducted a comprehensive project analysis, providing a detailed breakdown of all project components and timelines.

Languages and Software

- Autocad, Solidworks, Inventor (CAD CAM), Fluidsim (pneumatic and hydraulic), Robotstudio (Rapid language), Linkage, Sinumerik (turning and milling), Java, JavaScript , VHDL, Python, C,C++, Matlab, Arduino, Logisim, Stateflow, Simulink, ROS, Jupyter Notebook, Ansys, 20-Sim

Spoken Languages

- **Arabic** (Native), **English** (Fluent), **German** (Intermediate)
