Objective

Computer Science student at Future University in Cairo, with a strong foundation in programming, full-stack development, and problem-solving. I am highly adaptable, capable of thriving under pressure, and passionate about building efficient and scalable software solutions.

Education

Future University in Cairo — Bachelor's Degree in Computer Science
Graduation: 2026

American University in Cairo (AUC) — English Language Courses
2022 - 2024

Experience

Full Stack Developer Intern — Arab African International Bank
Aug 2024

- Developed user and merchant portal systems using Node.js, Express.js, and React.js.
- Worked on full-stack development including API creation, database management, and front-end UI integration.

Participant — Egyptian Collegiate Programming Contest (ECPC)
- Gained foundational skills in algorithmic thinking and advanced problem-solving.

Technical Skills

Programming Languages: Java, C++, JavaScript, Python, C#
Web Development: HTML, CSS, Node.js, Express.js, React.js
Database: SQL, No SQL
Concepts: Object-Oriented Programming (OOP), Data Structures, Software Engineering
Tools: Microsoft Office

Courses

Java SE Development (Ministry of Communications and Information Technology)
Data Structures
Object-Oriented Programming (OOP)
Database Systems
Software Engineering I

Artificial Intelligence

Deep learning

Machine learning

Projects

Bluetooth RC Car — Controlled a robotic car via Bluetooth using Java.

ATM System — Developed an ATM simulation program using Java.

Swimming Academy Management System — Designed and implemented a SQL Server-based system for academy operations.
